SKILL ENGINEER
Engineering Training Provider

CERTIFICATE
OF EXCELLENCE

This certificate is proudly presented to

Farell Elghifari Putratama

Has successfully completed the training on
Geothermal Power Plant Performance Analysis
Delivered by Ir. Munawir Rosyadi Siregar, ST.
(10+ years experience as power plant engineer)

3-day training held on December 12, 14, and 15, 2025.
With a total duration of 600 minutes (10 hours).

Date of Issue : December 23, 2025

Learning Outcomes of the Training on
Geothermal Power Plant Performance Analysis

1. Basic Sistem Tenaga Listrik Dan Isu Terkini Ketenagalistrikan
2. Geothermal Energy
3. Basic Thermodynamics For Geothermal Power Plant
4. Lapangan Panas Bumi: Steamfield Above Ground System (SAGS)
5. Geothermal Power Plant Main Equipment : Peralatan Utama
6. Geothermal Power Plant Auxiliaries System : Peralatan Pembantu
7. Geothermal Power Plant Balance Of Plant: Peralatan Penyokong
8. Thermodynamic Calculation In Geothermal Power Plant Performance
9. Create EXCEL Dashboard Geothermal Power Plant Performance
